

FEDERAL SERVICES

~~XXXXXX~~, 2016

Dear ~~XXXXXX~~

Thank you for your interest in our Computer Voice Stress Analyzer[®]. Our CVSA[®] Systems are designed for Law Enforcement, but have become increasingly useful for Private Investigation. Since you are interested as an individual, not a LEA, you could apply for our Private Purchase Program.

I am providing you with information regarding our Private Purchase of the CVSA[®] System and Training Program. The first step is our application process. Attached you will find the following:

- Application
- Waiver of Liability & Hold Harmless Agreement – Notarized
- Export License Agreement- Notarized
- End User's License Agreement (EULA) New- CVSA[®] Standard

Please complete the documents, including detailed information as to the intended use of the CVSA[®] system. Scan or photograph a copy of your current government issued photo ID and include with your application. The application packet will be reviewed and you will be notified once approved. Upon approval we require the original signed documents mailed to our address noted below.

Once your application is approved, we will provide pricing information for you to review. The CVSA System will need to be paid in full before delivery and class.

At this time, we are experiencing a backlog, and there may be up to a 2 year delay on acquisitions. If you have any questions, please do not hesitate email or call TOLL FREE at 888-266-7263. I look forward to assisting you with this purchase.

Have a good day.
